

## Create Quizzes

To create a quiz using Socio Quiz go to Admin > Quizzes > Create.

The screenshot displays the 'Socio Quiz Admin panel' with a dark sidebar and a main content area. The sidebar contains a menu with options: Dashboard, Quizzes (expanded), Create (selected), View, Config, Embed codes, Users (expanded), Config, Widgets, Languages, Pages, and Change password. The main content area is titled 'Create a quiz' and features a tabbed interface with 'Basic Details' (active), 'Results', 'Questions', and 'OG settings'. The 'Basic Details' tab shows a form for 'Editing Basic Details' with the following fields: 'Make the quiz visible to users?' (a toggle switch set to 'NO'), 'Quiz Type' (a dropdown menu showing 'Prediction / Discovery'), 'Topic' (a text input field), and 'Description' (a text input field). To the right of the form is a green callout box with a lightbulb icon, containing the text: 'Save the quiz to Database here', 'You have to click the "Save Quiz" button below to save the changes to Database. Otherwise all the changes you made will be discarded.', and a red 'Save Quiz' button.

## Descriptions of Fields

To create a quiz details you have to enter are categorized into four sections. After each section you have to update data to Draft. But changes added to the draft will be discarded once the page is closed. To save the quiz into database click Save Quiz Button.

## Save the quiz to Database here

You have to click the "Save Quiz" button below to save the changes to Database. Otherwise all the changes you made will be discarded.

**Save Quiz**
